**Saving our Suffolk Swifts – Swift Awareness Week
Friday 28th June 19.30pm**

Our Swifts are in real trouble! Across the UK, we've lost over half of these iconic birds of Summer in just over 20 years. In national Swift Awareness week, join Edward Jackson from the "Save our Suffolk Swifts" project for an informative and inspiring evening.

You'll learn about Swift life stories, the reasons for the rapid population declines and most importantly what we can all do to help these amazing birds. Weather permitting, after the talk we will go outside to watch Swifts flying overhead and – hopefully – exploring the new nest boxes installed on the church in 2018. There is also a chance that Edward may be able to stream live images of Swifts from a fantastic next box webcam in Poland!

**Entrance is free – donations to the SOS Swifts fund
Refreshments will be available**
